Dear Sir / Madam,

We are pleased to introduce our product named **IT@School-ERP (A Complete ERP Solution for School/Institution Management)** for your esteemed organization. IT@School is a comprehensive software solution to manage all facets of your Educational institute.

Efficient management through disciplined action distinguishes the best institutes from the good ones. It is the secret behind the success of all modern educational establishments. Many international schools/colleges across the country are happy that they started using 'IT@School-ERP' to monitor all their campus activities.

This user-friendly school management software has been developed after an in-depth analysis of the requirements of school and in close coordination with the educationists of distinction, thereby proposing to increase the efficiency of the entire system. Its primary purpose is to provide mechanisms for automated processing and tracking of student information for an educational institution. The software helps educators to manage, analyze and report extensive data, while saving time by eliminating repeated data entry. This School Management Software is a complete solution for management of educational institutions, covering all the aspects of educational business, including administrative, accounting and key academic activities.

The campus version of IT@School-ERP is windows based application and thus it is highly acceptable among the users and very easy to deploy and manage. This Application allows synchronization of data with online SIS (Student Information System) application. **SISOnline** is a medium between School, Teachers and Parents. It gives access to parents to check detail of their ward. Data is Synchronizes through an interface to update this application. This system allows synchronization of data with Tally.ERP9.

This is a School ERP solution that can be integrated with RFID, smart cards, biometrics and bar codes as per the schools requirement. We have introduced C.B.S.E. Based CCE Examination Result System with this ERP, which helps schools to generate results without hassle.

This product is successfully installed and running at various Institutions all over India. Please feel free to contact us for any query or demonstration of our product to fulfill your requirements.

Thanking You
IT@School-ERP Team
